UK Energy Review Published

Posted by Chris Vernon on July 11, 2006 - 1:22pm in The Oil Drum: Europe
Topic: Policy/Politics
Tags: carbon dioxide, coal, demand, energy, gas, nuclear, oil, united kingdom [list all tags]

At 16:20 BST Tuesday 11th July 2006 the Department of Trade and Industry (DTI) published the long awaited Energy Review.

The full 218 page, 3.2MB pdf file can be downloaded from the DTI server here: Energy Review Report

The DTI server has been extremely busy today but the document is also available from the BBC server here: Energy Review Report

Any comments?
